

FACULTY OF INFORMATION AND COMMUNICATION TECHNOLOGY

UCCD2303 DATABASE TECHNOLOGY / UCCD2203 DATABASE SYSTEMS

Session 202502
February 2025 trimester

Group Assignment Question 100 marks

Grand Wooly is an established conglomerate business corporation in South-East Asia. Its operation ranging from food & beverages, tourism, and entertainment. With its latest business venture into fast-food restaurant, *The Foodie*, which specialize in burgers and fried chickens. A new computerized system needs to be in place for the restaurant overall operations including inventory management, point of sales, event management, scheduling, etc.

Various software development company are being invited to propose its solution for the operations they interested.

Guideline

1. Choose an area of operations.
2. Propose the system for your chosen area with 10 main functionalities.
3. Suggestion:

Area f operations	Main Functions
Point of sales	Food ordering system at counter, kiosk, delivery and self-pickup
Event management	Birthday party, Team building, School visit, Burger-making Workshop
Promotion	Value-set, voucher, marketing events, Toys and Collectables

Your company is appointed for the system development for one of the area of operations. As a database designer in the system development team, you are required to design and develop a database to support your company proposed functionalities based on the given scenario.

Attention:

- The proposed database system must be designed to keep track of all records.
- Identify all the important concepts represented in given scenario as described here.
- In particular, identify the abstraction of classification (entity types and relationship types), aggregation, identification, and specialization/generalization. Specify (min, max) cardinality constraints whenever possible.
- List details or any assumptions that will affect the conceptual design.

FINAL SOFT COPY FORMAT FOR SUBMISSION

The final softcopy should adhere to this below word guidelines:

1. Font type: Arial
2. Font Size:
 - a) General Text: 12 point (single spacing)
 - b) Section Headings: 14 point (bold)
3. Page should be NUMBERED.
4. All Students should attach the signed assessment sheet (Digital Signature) confirming that, the report is not plagiarized (in Soft Copy).
5. The answer script should contains the cover sheet, marking scheme and Table of contents.
6. Name the group assignment report in MS Word format as follows:

UCCD2303_GroupNumber.docx or UCCD2203_GroupNumber.docx

For example: UCCD2303_G99.docx or UCCD2203_G99.docx

7. Each member name their individual oracle SQL scripts as follows:

**UCCD2303_GroupNumber_MemberName.sql or
UCCD2203_GroupNumber_MemberName.sql**

*For example: UCCD2303_G99_MemberName.sql or
UCCD2203_G99_MemberName.sql*

8. Group leader to create a OneDrive folder (e.g. Folder name UCCD2303_G99_Folder) . The folder shall contain the one zip file (e.g. UCCD2303_G99_Answers.zip or UCCD2203_G99_Answers.zip) and one group presentation video in mp4 format (.e.g. UCCD2303_G99_Video.mp4 or UCCD2203_G99_Video.mp4)
9. Group leader is responsible to **zip** the group assignment word report with the marksheet and related SQL files as **one zip file** per group and upload into the group leader's **OneDrive** (editor mode).
10. Group leader to provide the OneDrive folder group assignment submission hyperlink (editor mode) to the given google form on WBLE.

Group Assignment Mark sheet

Group Number (e.g. G99):	
Group leader name:	
Group leader to provide the OneDrive folder hyperlink (editor mode) which contains the zip file and a group presentation video in mp4 format:	
Group leader email address:	
Submission date (dd-Mon-yy):	

Member Contribution Declaration Sheet				
	Member 1	Member 2	Member 3	Member 4
Member Name (ascending order, group leader with *):				
Student ID (e.g. 2299999)				
Program CS / IA, IB / DE:				
Member's signature				
	Contribution of each member (Total 100%)			
	%	%	%	%
PART 1: Group Assessment (50 marks)				
1. Scope of Work (5 marks).				
2. ER model (10 marks).				

UCCD2303 Group Assignment Question
February 2025 Trimester

3.	Redesign and EER (10 marks).				
4.	Data Dictionary (10 marks)				
5.	Tables and records (5 marks)				
6.	Script (10 marks)				

Note:

- Maximum 4 members per group.
- The assignment grouping can be from different tutorial groups but must be from the same programme except with approval i.e. CS student work with CS student
- Programme e.g. IA/IB/DE/CS/CN/CT/IR
- All members should attach their individual signature confirming that the report is not plagiarized
- For assignment answer submission include the Mark sheet, Table of Contents. Members' contributions.

Assignment Mark Sheet			
PART 1: (Group Assessment – 50 marks)		Allocated marks	Given Marks
1.	Scope of Work (5 marks) Analyse requirements study (briefly explain the requirements/ office / business rules in the system). <u>PLEASE INCLUDE ANY ASSUMPTIONS THAT YOU MAKE.</u>	5	
2.	ER model (10 marks) You are required to design an ER diagram for the case study given, identify entities, identify relationships, identify associate attribute and determine keys. Check your ERD with the transaction requirements stated in the case.	10	
3.	Redesign and EER (10 marks) Redesign your ER diagram with the new requirements and extending the ERD to EER model, if any.	10	
4.	Data Dictionary (10 marks) Based on EER diagram that you created in part 3, create a data dictionary for the solution. (Make sure the data types (Oracle) selected are appropriate)	10	
5.	Tables and records (5 marks) Create all relations in ERD and insert the necessary records (Minimum 5 record for each table)	5	
6.	Script (10 marks) You are required to submit the SQL schema script with proper codes. Should include Integrity and referential integrity constraints. Softcopy: Include the scripts in the submission	10	

UCCD2303 Group Assignment Question
February 2025 Trimester

PART 2: (Individual Assessment – 50 marks)

(Fill in all your group members name and ID according to the same sequence on the cover page)

Member		1	2	3	4
Student Name: (member fill up)					
Student ID; (member fill up)					
Queries (10 marks)	10				
Stored Procedure (10 marks)	10				
Functions (10 marks)	10				
Presentation (20 marks)	20				
Total Individual Assessment (50 marks)					
Group Assessment (50 marks)					
Total marks (100 marks)					

Part 2 Individual Report within the group report.

Include all members' individual SQL and PL/SQL answers into the group report, screenshots are not required.

Part 2 Individual Presentation videos in ONE group video

- i. Group members are required to present two SQL queries, two PL/SQL stored procedures, and two PL/SQL functions.
- ii. Every group has to present their assignment work and explain each group member contribution towards the completion of the assignment.
- iii. Group member must present his/her work as individual for 3-5 minutes each person and compiled by the group leader as a single presentation video.
- iv. Each member record individually then group leader compiles as a single group video.
- v. Group leader to compile one group presentation video to be uploaded into OneDrive and provide the video hyperlink.
- vi. For Part 2 answers:
 - Indicate the operations performed and include an explanations on how the user can use the corresponding SQL commands.
 - No duplication or similar answers should be listed among the group members.

No.	Name (in ascending order) Group leader with *	A short description of members' contributions
1.		
2.		
3.		
4.
