

Exploring the Complexity of Aquatic Life

FISH

A word teeming with meaning

MAJOR CATEGORIES OF FISH

Tuna

Bony Fish

Sharks

Cartilaginous Fish

Lamprey

Jawless Fish

FAMILIAR SOUNDS

THE SONGS OF WHALES

Commonly used across all forms of medias:

- Documentaries
- Movies
- Shows
- Games

Whales are biologically mammals, not fish.

Click the icon to hear the song of a humpback whale

Goblin Shark

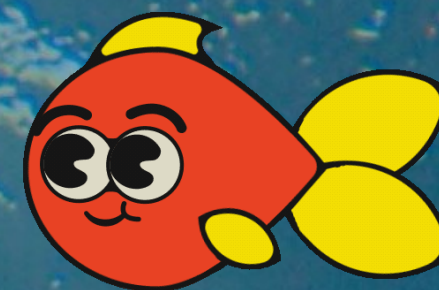

Hairy Frog Fish

ODD ONE OUT

EVOLUTION TAKES A WEIRD TURN

How fish in different zones have vastly different appearances

SUNLIGHT ZONE

BIODIVERSITY BENEATH THE WAVES

Where sunlight penetrates the most, fueling photosynthesis for most marine life

Comprises colourful, fast, and familiar schooling fish

Did you know?

Finding Nemo took place primarily in this zone

MIDNIGHT ZONE

THE UNCANNY CREEPS IN

Bioluminescence is prevalent. Commonly used to lure prey, mating, and as a defense mechanism.

Used as horror element in entertainment

Click the icon to watch

THE ABYSS

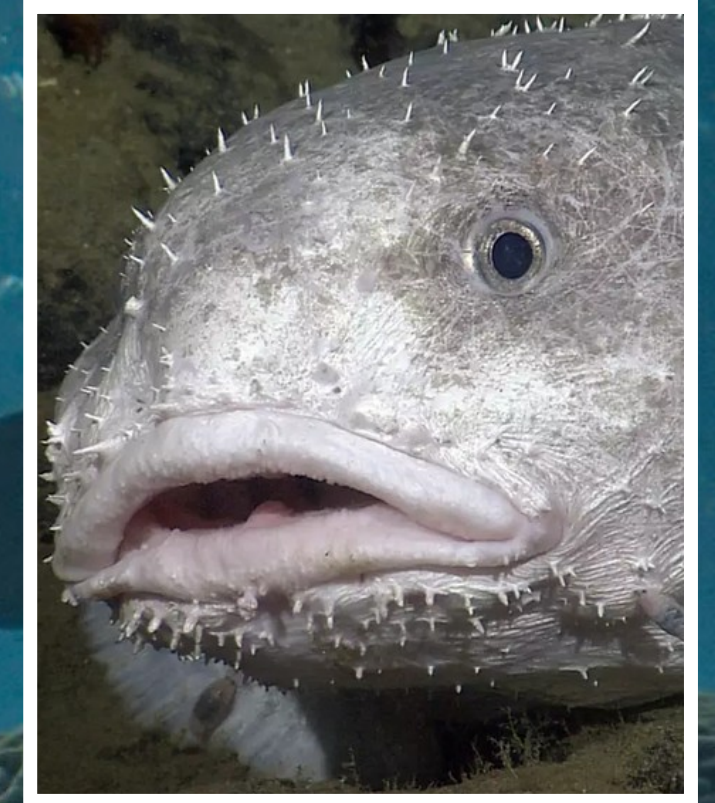

WHERE SUNLIGHT IS ABSENT

The scarcity of food and sunlight pushed evolution to the maximum.

Only 0.001% of the ocean floor have been explored

Bigfin squid

Blob sculpin fish

Rattail fish

WHY?

WHY DO DEEP-SEA FISH LOOK STRANGE

PRESSURE

- Extreme water pressure crushes air spaces
- Bodies become soft, flexible, or gelatinous

Deep sea anglerfish

SCARE FOOD

- Large mouths and expandable stomachs
- Slow movement to conserve energy

Blob sculpin fish

NO SUNLIGHT

- No eyes or every large eyes
- Bioluminescence replaces vision

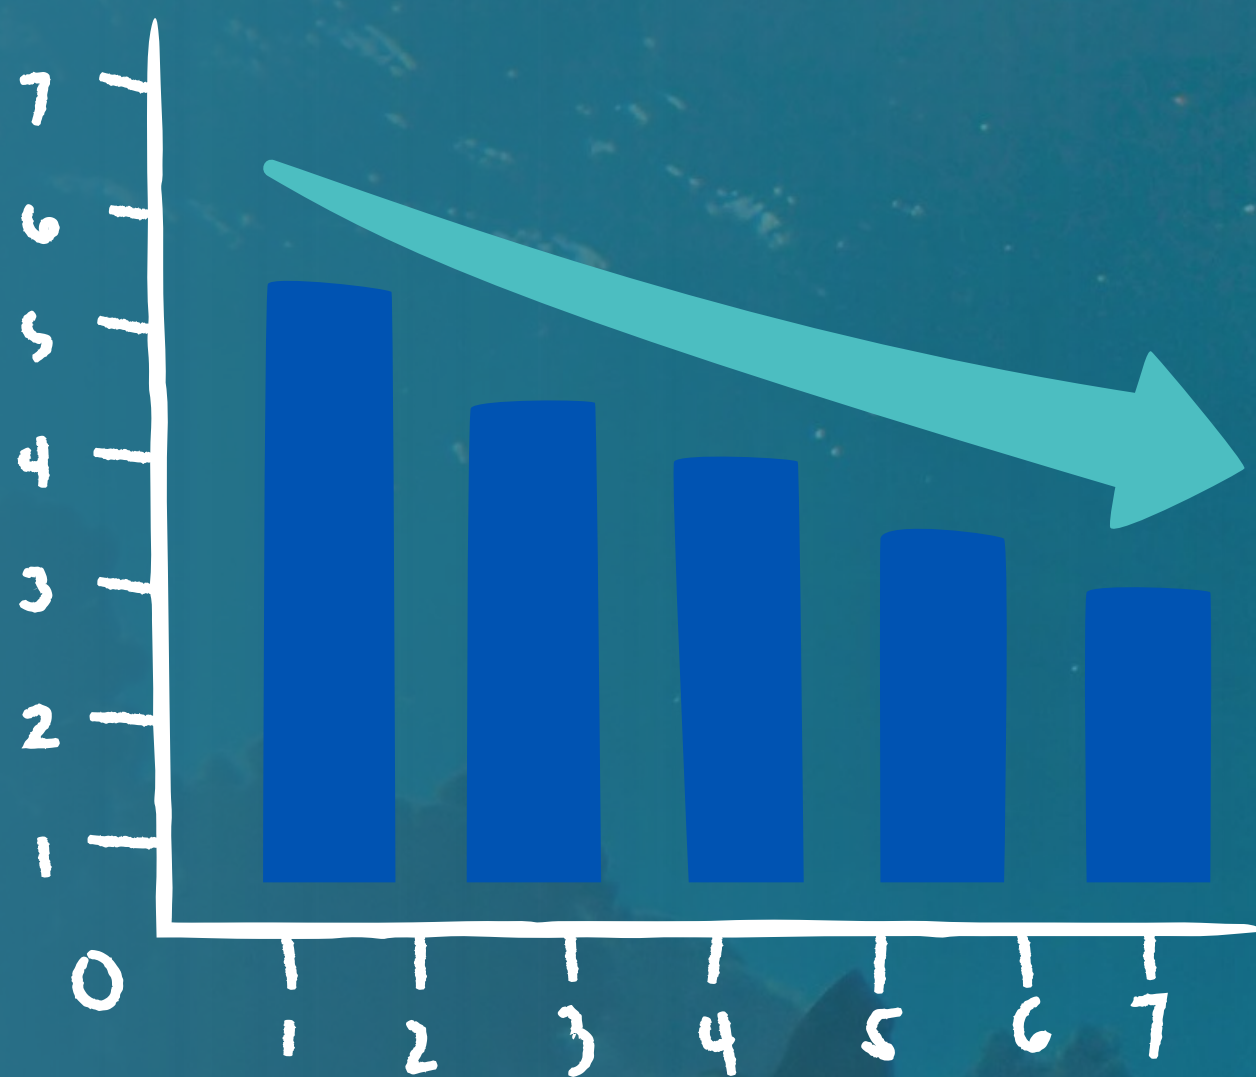

Gulper eel

FRAGILE BALANCE

OUR MARINE ECOSYSTEM IS IN DANGER

GLOBAL MIGRATORY FRESHWATER FISH

Population shown to have decreased 81%
between 1970 and 2020

DECLINE IN GLOBAL FOOD SUPPLY

A loss of 74% of the family of popular food fish

ON THE BRINK OF EXTINCTION

- More than 90 fish species are dangerously endangered.
- Nearly $\frac{1}{3}$ of fish population were found to be in decline

ENDANGERED SPECIES

Great White Shark
Vulnerable

Green sea turtle,
Endangered

Blue Whale,
Endangered

Hawksbill turtle
Critically endangered

WHAT CAN WE DO?

- Reduce plastic waste
- Choose sustainable seafood
- Protect ocean habitats

THANK YOU
