Each question carries 25 marks.

Should a candidate answer more than **ONE (1)** question in **Section B**, marks will only be awarded for the **FIRST** question in that section in the order the candidate submits the answers.

Candidates are not allowed to use calculator.

Answer questions only in the answer booklet provided.

UCCD3053 INFORMATION TECHNOLOGY PROFESSIONAL ETHICS

Section A (Answer ALL Questions)

- Q1. (a) With advances in Artificial Intelligence (AI), our society must address issues relating to cybercrime, security and innovations. The Law must prevent such abuses to protect individuals and society from such threats. With the above view, give **FOUR (4)** legal and ethical aspects of AI on the examples below:
- (i) Deepfakes. (4 marks)
 - (ii) Cybersecurity. (4 marks)
 - (iii) Healthcare. (4 marks)
 - (iv) Intellectual Property. (4 marks)
- (b) Outline **THREE (3)** Malaysia Board of Technologists (MBOT) code of Professional ethics and give an example for each. (9 marks)
- [Total: 25 marks]

- Q2. This article appeared on the Facebook page of Bank Islam (M) Bhd. on 18th Feb 2025.

Malaysian Police and Bank Islam warn public about lottery scam

Bank Islam Malaysia says Facebook posts claiming the lender is running an online lottery where customers can win generous prizes are "fake" and have misused their name and image. Police said the posts directed people to a page that imitated the bank's official website and asked for online banking details. The posts used photos taken during an event the bank held in September 2023 where they gave away prizes to investment account holders.

Images attached to the post show people displaying their prizes in front of the Bank Islam logo, and a graphic that appears to depict all the prizes on offer. Users are then encouraged to click a link in the post or in the page's bio for more information and to register for the purported lottery.

But Bank Islam and the Malaysian police have both warned that such posts are a scam.

The bank said in a February 9 statement that all campaign promotions are conducted exclusively through its official platforms and channels.

Q2. (Continued)

"We will never request personal or sensitive information such as account numbers, passwords or OTP (one-time password) codes through websites or social media accounts for any campaign," the bank added.

A separate reverse image of the graphic used in the false posts led to the verified Instagram page of Bank Islam, which shared a similar graphic on September 22, 2023. The version shared in the false posts, however, has several altered elements including text that indicated the prizes were for eligible Al-Awfar account holders.
